

System C Healthcare is committed to protecting the environment and continually improving our Environmental Management System (EMS) in accordance with ISO 14001:2015. As a provider of digital solutions for healthcare, social care, and education, we recognise our responsibility to support a sustainable, low-carbon future and to operate in a manner that reflects our environmental values.

Scope

This policy applies to all employees, contractors, suppliers, and partners. It is communicated via onboarding, our QMS, and our website.

Our Commitments

To fulfil our environmental responsibilities, we will:

- Prevent pollution and minimise environmental impacts across our operations
- Fulfil all applicable legal and other compliance obligations, supported by our Legal and Obligations registers
- Promote resource efficiency, responsible waste management, and climate resilience
- Engage employees and stakeholders in environmental awareness and improvement initiatives
- Set, review, and implement measurable objectives and programmes to continually improve our EMS and reduce our environmental footprint

Governance

The ESG Committee reviews this policy annually to ensure its continued suitability, adequacy, and alignment with our strategic objectives.
